# About Us

Conceived in Las Vegas, Nevada in the year 2014 (and established in December 2015), Mace has been developing the latest and greatest products for your baby, your home, and your body, with fashion offerings soon to come.

Our flagship product is the aMACEing Zero Leak Baby Bottle, but it's more than just a product; it's our commitment to improving the precious feeding time that occurs between parent and child.

Some of our other baby products include: the Baby Backseat Mirror, toddler toilet seats, organic skin care products, and more to come.

Our selection of home goods includes the Birthday Minder, Holiday Minder, and Water Purifier.

We have products to benefit women's health and beauty as well, such as: moistening sprays, the Heated Eye Treatment Wand, and plans for future offerings as well.

We're working tirelessly to bring you other products we think you'll love. It is our dream that these products, among others, will make Mace a household name in child care.

# Introduction

Mace Baby has introduced the aMACEing ZERO LEAK® Leak-Proof Baby Bottle, bringing innovative design to the traditional baby bottle market. This leak-proof bottle is helping families enjoy the safest, most peaceful feeding experience.

There's a lack of awareness of leaking baby bottles and its negative side-effects such as:

- **Bottle Tooth Decay.** A leaking baby bottle can cause excess liquid to pool in the baby's mouth. Pooling can expose the teeth to excess sugars and acids from milk or juice causing tooth decay. With the aMACEing ZERO LEAK® Leak-Proof Baby Bottle, we can ensure no liquid pools into the baby's mouth after feeding.
- **Ear Infections.** When liquid from a bottle leaks and pools in the back of baby's mouth, it can reach the middle ear, causing ear infections. In rare cases the pooling can cover the Epiglottis to the lungs, causing choking and possible suffocation!

The aMACEing Zero Leak Baby Bottle comes with a range of attractive features that support baby's health and parents' lifestyles in a number of ways. These include:

- BPA-Free Bottle and Nipple
- 100% Silicone Nipple (works for 0 Months +)
- Lead-Free, Phthalates-Free
- "Variable flow" lets milk/formula flow at baby's pace, just like a mom's nipple.
- Mace Cap helps secure the bottle for safe transport
- Mace Collar makes opening and securing the bottle easier
- Dishwasher-safe (top rack)
- Comes in two sizes: 7 ounce and 10 ounce
- Oz and ML measurements on the bottle
- Made in USA
- Bottles have passed SGS and TÜV Rheinland testing and are FDA approved.
- Winner of the Mom's Choice Gold Recipient Award
- Winner of the 2018 *National Parenting Product Awards*

The PP material for our bottle caps and locks has been granted approval for food contact under European Union regulations. (Directives EC 2023/2006, EC 1935/2004, and EU 10/2011).

In opting to construct our bottles from PP, we have rendered them free of all phthalates. There is no toxic BPA to be found, either.

## Customer review

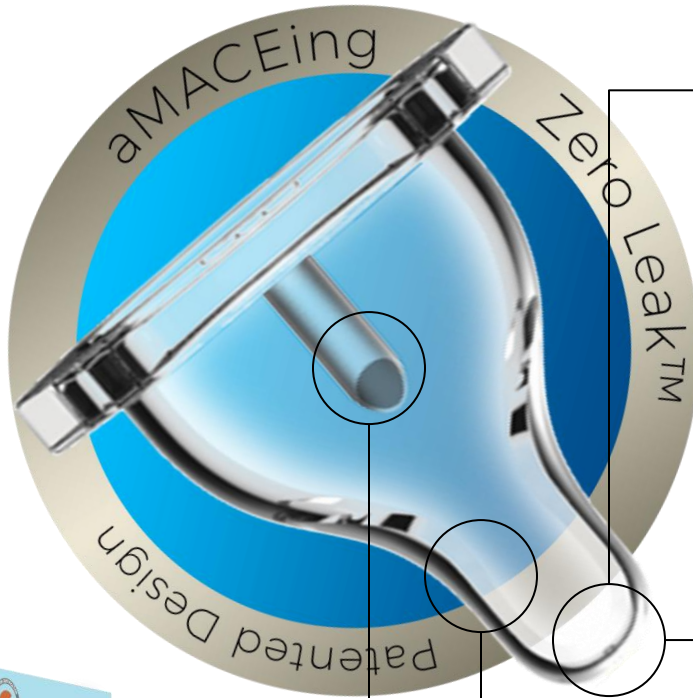

*"A parent, grandparent, great grandparent. I was a Childcare Provider for 18 years caring for many babies. Although the most expensive bottle that I have ever purchased, also the best. Nice looking, 2 different sizes, nice subtle colors and although others say "they do not leak", this bottle really doesn't... I would recommend this bottle before wasting your money on even the popular brand names!" - Henrietta Oliveira*

*"My newborn loves this bottle! She always seems less gassy and more content after using it too!" - Briana Henderson.*

*"One of a kind product. Whoever the inventor is, I was really thankful that he came up with this idea." - Garcia Nel*

Our bottles have also passed several SGS tests: FDA 500.450 for "volatile N-nitrosamines" and the "extractable fraction", "soluble fraction", and "density" requirements of FDA 21 CFR 177.1520.

## Leak Proof

Truly leak proof nipple helps avoid the dangers of a leaking baby bottle.

## Variable Flow

Flow adjusts to the suctioning force of your little one making our nipple an all-in-1 solution. Although it is recommended to replace the nipple once every 3 months, you don't have to worry about choosing a specific size.

## 100% Silicone

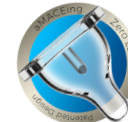

BPA & Phthalate Free for a safe and worry free experience. Our nipples are made from high-quality SIL-5930, a Class VI (the safest of all six classes) compound cleared for use in medical devices.

## Anti-Colic

Anti-colic vent reduces colic and other symptoms like reflux and burping.

Nipple compatible with any  
MACE Baby Bottle
